### 5th International Symposium on Inland Saline Lakes

This will be held during March 17-22, 1991 at Hotel Titicaca on the Bolivian shoreline of Lake Titicaca. A post-symposium excursion to saline lakes of the Bolivian altiplano and puna is planned for March 23-29. Participation in both will be restricted to persons who present papers on the bio-

logy of saline lakes or on physical, chemical and geological phenomena relevant to the biota of saline lakes. Some funds may be available, on a competitive basis, to partially defray costs for Latin American scientists. For further information, contact: Stuart H. Hurlbert, Department of Biology, San Diego State University, San Diego, C.A., U.S.A. 92182-0057.
